

Prajwal Ankush Jain

Data Analyst

Location: Pune.

Mob: +91 8888292599

email: Prajwaljain08@gmail.com [LinkedIn Profile](#)

Professional Summary:

Motivated and detail-oriented Data Analyst graduate with hands-on project experience in **Data Analytics**, **Data Cleansing**, and **Dashboard Development**. Skilled in **SQL**, **Python**, **Power BI**, and **MS Office** with a strong ability to interpret data and manage large databases. Seeking an entry-level role to apply data visualization and interpretation skills for business impact.

Core Skills:

- **Data Analysis & Management:** Data Analytics, Data Interpretation, Data Cleansing, Data Management, Large Databases
- **Tools & Technologies:** SQL, Python (Pandas), Power BI, Tableau, MS Office (Excel), Google Sheets, Google Data Studio
- **Specialized Areas:** Dashboard Development, Data Visualization, Looker (basic)

Education:

- **Bachelor of Computer Science** | Greenfingers College of Computer & Technology, Akuj (2025)
- **HSC** | Shreenath Vidyalaya & Junior College, Malshiras (2022)
- **SSC** | Shree Kalbhairavnath Vidyalaya Medad, Malshiras (2020)

Certifications & Achievements

- Data Analyst & Data Science Certification – Fortune Cloud

Projects:

Ola Ride Data Analysis | SQL, Python (Pandas), Power BI, Excel

- Performed **Data Cleansing** and preprocessing on large ride booking datasets using Python Pandas to ensure data quality.
- Conducted **Exploratory Data Analysis (EDA)** to identify peak booking hours, cancellation rates, and revenue patterns.
- Built interactive **Power BI dashboards** (Data Visualization) to track total rides, revenue, driver performance, and customer ratings.
- Interpreted key factors affecting cancellations and delivered data-driven recommendations to reduce ride losses.

Vendor Performance Analysis Dashboard | SQL, Python, Power BI, Excel, Google Sheets

- Analyzed vendor sales and inventory data from **large databases** using SQL queries to extract actionable KPIs.
- Developed **Dashboard Development** in Power BI to monitor sales, profit trends, and unsold inventory levels.
- Used **Google Sheets** for preliminary data interpretation and collaborative reporting.
- Identified top vs. low-performing vendors, enabling management to optimize vendor contracts.

Technical Proficiencies:

- **Preferred Tools:** Google Sheets, Power BI, MS Office, SQL, Tableau, Google Data Studio
- **Core Functions:** Data Visualization, Dashboard Development, Data Cleansing, Data Interpretation, Data Management, Large Databases
